

From the Michigan Water Polo Association Board 7-28-20

To Whom it May Concern,

On Sunday, July 26th, the Michigan Water Polo Association (MWPA) Board members voted unanimously to postpone the boys fall 2020 season until the spring of 2021. Though we are not an active member of MHSAA, we adhere to their health and safety guidelines and regulations. Under the current recommendations to keep all fall sports safe, the Board did not feel it was possible to proceed with the fall season.

We understand that there will be challenges with regards to scheduling both boys and girls events simultaneously, but we believe this will provide a safer season for our athletes, and the decision was in the best interest of all involved . Pending the outcome of this spring season, we will consider making this a permanent move to become synchronous with other high school water polo seasons in the Midwest region.

Thank You,

Rebecca Godek
